BERGE BULK OFFSET PROJECT

Tasmanian Native Forest Protection

PROJECT IMPACT:

Preventing Logging

By preventing logging across an area of 3,000 hectares, this project reduces emissions and protects precious native Tasmanian forests. This project also looks after a habitat for 9 endangered species and 22 vulnerable Australian species — including the wedge-tailed eagle, spotted quoll and Tasmanian devil.

PROJECT DETAILS:

Standard:	Verified Carbon Standard (VCS)
Location:	Tasmania, Australia
Type:	Preservation
Supporting SDGs:	13 (Climate action) & 15 (Life on land)
